

FHBK

Fluorescent High Bay K

Wide beam distribution

The FHBK is well-suited for any high-ceiling application that requires energy efficiency and ease-of-installation.

95% specular reflector

The FHBK comes with a standard 95% solid specular reflector for optimal performance.

Instant start ballast

Using an instant start-up ballast, the FHBK is poised to save even more money as it can be used with motion detectors and in the event of a power outage the luminaire ensures your clients will be back up and functional in no time.

Available with four or six lamps

The FHBK can be configured with four or six lamps in both T5 or T8 technology.

Save up to *\$100 per fixture annually

The FHBK has been designed to be ultra energy conservative with a standard 95% specular reflector and T5 or T8 technology available.

* Based on 11c/kwh @ 80/week operation

"The FHBK by Visioneering is one of the most reliable out-of-the-box lighting solutions on the market today. Its versatile, sturdy and easy to install."
